Compromise for Trial Issue Goes To Senate Floor

WASHINGTON, Aug. 1 (AP)—Sen. Lyndon B. Johnson, D., Tex., said today a new addition to the jury trial amendment proposed as part of the civil rights bill would "confer an important new civil right" on American citizens. The senate Democratic leader told newsmen, however, that he has no idea whether it would influence the touch-and-go battle over the jury trial issue. Senator Knowland of California, the Republican leader, said he is confident that supporters of the administration bill still have enough votes to defeat the amendment.

The amendment would require jury trials in criminal contempt cases arising from federal court injunctions against interference with voting rights. Johnson said a new civil right would be granted by a section added to the amendment last night. That language would permit Negroes or others to serve as federal jurors regardless of whether or not they were qualified under state laws. Federal jurors now must meet state standards.

Johnson read to the senate a letter sent to all senators from the president of the 12 railroad brotherhoods urging adoption of a jury trial amendment.

Johnson told the senate a session would be held tonight if senators agreed to speak and that a Saturday session also would be held. He said the jury trial issue could be reached in the next few days.

Senate Okay's Funds to Run U. S. Defense

WASHINGTON, Aug. 1 (AP)—The senate passed by voice vote today a \$1,759,850,000 compromise bill providing funds for the defense department for the 12 months that began July 1.

The defense money bill went to President Eisenhower. It carried \$1,759,850,000 of new funds for the army; \$1,021,355,000 for the navy and marines; \$16,314,100,000 for the air force; with the balance for the office of the secretary of defense and interservice activities.

The senate acted with only brief debate after temporarily laying aside the civil rights bill. It did so shortly after the White House said the defense department and some other agencies might not be able to meet their August payroll unless the senate acted on pending money bills stymied by the civil rights debate.

Approval of the motion to take up the defense appropriation bill temporarily displaced the civil rights bill. But it will automatically become the pending business again when the senate completes action on the money bill.

Idaho Conforms On Labor Rules

BOISE, Aug. 1 (AP)—A U. S. department of labor official said today that Idaho ranks high among the states in conforming with federal labor laws.

Elbert Shaw, Jr., investigator here for the wage and hour division of the department, said there has not been a major violation of federal labor regulations in Idaho this year.

"Our records show that Idaho business organizations are cooperating fully with the government as far as labor regulations are concerned," Shaw said. "Any violations that have been reported were due largely to misinterpretations of the law."

BURLEY, Aug. 1 (AP)—Dale Schneider, Burley, parlayed a parking ticket Wednesday into a police bond of \$105.

Schneider, given the parking ticket, took it to the police station and protested its issuance to him. He posted a bond of \$5 for a future appearance.

After having posted the bond, though, he continued to protest, and police arrested him on a charge of disturbing the peace. Bond on that cost him \$50.

Then his protests really became vehement and police arrested him on a charge of public intoxication, costing him another \$50. No time has been set for hearings on the three charges.

NEWS BULLETINS

VIENNA, Ga., Aug. 1 (AP)—Former Senator Walter F. George, 79, suffering from heart disease, was weaker today and his physicians said they were extremely worried about his condition.

HAVANA, Cuba, Aug. 1 (AP)—President Fulgencio Batista's government today suspended constitutional guarantees for 45 days throughout Cuba. Palace sources said press censorship would go into effect later this afternoon.

WASHINGTON, Aug. 1 (AP)—Senator McClellan, D., Ark., said today the Teamsters' union apparently paid the expenses of former heavyweight champion Joe Louis when Louis came to Washington in mid-July and attended James R. Hoffa's bribery trial. Hoffa, a vice president of the Teamsters, was acquitted in the trial of charges that he tried to plant a spy on the staff of McClellan's senate racketeering committee.

U.S. Making Plans To Fight Influenza

WASHINGTON, Aug. 1 (AP)—The nation's chief health officer said today there is a "very definite probability" of a widespread outbreak of Asiatic flu in this country by fall or early winter. Surgeon General Leroy E. Burney said at a news conference that there has been "very wide seeding" of the oriental flu virus in this country. Dr. Burney also reported in a statement that the first vaccine shots against Asiatic flu are expected to become available to the public in September. The surgeon general said six manufacturers licensed to produce influenza vaccine have set a production goal of at least 60 million doses by Feb. 1.

Invasion

HATLEY, Aug. 1 (AP)—Fishermen posted approximately every 500 feet along both sides of Silver creek Thursday morning, yanked out an average of six trout apiece, state fish and game department officials reported at noon.

The fishing season on Silver creek opened Thursday morning and roughly 2,000 fishermen swarmed along the 11-mile stretch of water. Conditions, though, were not crowded. Last year 3,000 fishermen tried to get their lines in the stream on opening day.

Fish and game department officials checked creels all morning and reported the average catch was six trout in each creel checked. The largest fish checked by officials weighed nearly six pounds.

T. F. Resident Is Fined \$100 In Buhl Court

Max K. Martin, Twin Falls, was fined \$100 and \$3 costs Thursday morning by Buhl Police Judge Bernard Starr on a charge of drunken driving. Judge Starr suspended Martin's license for one year.

The judge also fined Jack O. Kitchen, Twin Falls, \$25 and \$3 costs on a charge of being drunk in a car on a public highway.

Visit Ireland

DUBLIN, Aug. 1 (AP)—Chief Justice Earl Warren, former Gov. Thomas E. Dewey of New York and David Maxwell of Philadelphia, immediate past president of the American Bar association, flew to Ireland today to visit friends and government officials.

The Americans had attended the meeting of the American Bar association in London.

Truck Driver Brings Vehicle To Halt After Long Runaway

UNIONTOWN, Pa., Aug. 1 (AP)—A truck driver who skillfully drove his brakeless vehicle at an 85 miles an hour down a curving mountain road without denting a fender said today he's mighty lucky to be alive.

State Trooper Rex Silbaugh, a man with nerves to match those of Glenn Switzer, Fairmont, Neb., agreed with Switzer. So did nearly a score of motorists who scattered out of the path of the truck, carrying 40,000 pounds of sugar from Baltimore to Chicago.

Switzer, 28, had just started to descend the three-mile Summit Mountain hill on route 40 last night when his clutch failed. Then his brakes failed. By this time, he said, he was "really rolling."

Just then, Trooper Silbaugh came along on routine patrol—in the opposite lane of traffic. He quickly swung his car around, sped past Switzer's rolling truck and kept his alarm roaring. Motorists scattered.

Local 8-Year-Old Boy Electrocuted In Farm Accident

Despite gallant efforts by a grief-stricken mother and law enforcement officers from two states to save his life, an 8-year-old Twin Falls boy died late Wednesday afternoon in the barnyard of his father's farm. He had been electrocuted while standing in water and touching chicken wire that had become entangled with a light switch. The boy was Jimmie Ramseyer, 8, son of Mr. and Mrs. D. D. Ramseyer, who live four miles south and one-half west of South Park in Twin Falls.

Strike Delays Eyed By Education Board

MCCALL, Aug. 1 (AP)—The state board of education yesterday contemplated what to do about two strike-stalled projects at Idaho State college. Dr. Carl McIntosh, president of the Pocatello school, said the strike of 1,800 south Idaho carpenters had delayed full completion deadlines on construction of a three-unit "men's dormitory complex" and reconstruction of an industrial classroom building damaged by fire. "I'm not sure of the present status of construction on the dormitories," the college president said here, "but we may have to ask residents to house the 296 men scheduled to live in the three units."

Airplane Meet Planned Here For August 11

The 12th annual Magic Valley model airplane contest, sponsored by the Twin Falls Exchange club, will be held in Twin Falls Aug. 11.

With freestyle and U-control as the main contest categories, entries will be accepted in open, unlimited, one-half A, A, B, and C classes. The junior class is open to any contestant under 16. Junior entrants may compete, however, in all classes.

Freestyle competition will be held at McCall, where it is located nine miles south of Five Points east. Competition will commence at 7 a.m. and will end at noon.

House Solons Okay Military Justice Right

WASHINGTON, Aug. 1 (AP)—The house armed services committee today voted 31-4 to give the U. S. military the power to decide for the United States whether a GI should be turned over for foreign trial for an on-duty offense.

Approval of the bill came in the face of a strong administration protest that any U. S. law concerning the status-of-forces treaties would harm America's foreign relations and could lead to foreign intransigence on many more trials of U. S. servicemen.

Inquest Will Go on Today In Drowning

HOMEDALE, Aug. 1 (AP)—Dr. William G. Reimer, Owyhee county coroner, called a coroner's jury to meet today to determine the cause of death of an attractive divorcee whose body was found Monday in the Snake river.

The jury will investigate the death of Mrs. Bertha Ehrhart, 39-year-old Homedale city clerk and police judge, who disappeared July 8. A charge of destroying city records was filed against the woman following her disappearance.

Ike Is Called "Lousy Liar"

WASHINGTON, Aug. 1 (AP)—Rep. Cleveland M. Bailey, D. W. Va., called President Eisenhower "a lousy liar" today.

He hurled the name at the President for denying responsibility for killing the 1 1/2-billion-dollar school construction bill.

Bailey, a chief Democratic sponsor of the measure, also said Eisenhower would be "playing politics in an election year" if he asks congress next year to approve a school construction bill.

Two Airmen Dead As T-33 Crashes

ALBUQUERQUE, Aug. 1 (AP)—Two Arizona-based airmen were killed today when their air force T-33 jet trainer crashed while attempting a landing at Kirtland air force base.

The air force withheld the names of the victims pending notification of next of kin, but said the airmen were stationed at Williams AFB near Chandler, Ariz.

Air Force Is Celebrating Fifty Years Of Defending U.S. From Aggression

WASHINGTON, Aug. 1 (AP)—The United States air force flew high, wide and handsome today in marking the end of its first half century as a military arm.

There were many to claim that the youngest of America's defense forces had become its mightiest. Its men were entrenched in the nation's top military positions. Its money was almost half of the total spent on national defense. Its machines were poking farther and farther into the frontiers of space.

In the years since World War II, the air force had seen the doctrine of strategic bombing adopted as national policy. When Secretary of State John Foster Dulles in January, 1954, outlined the policy of "massive retaliation" with "massive retaliatory power," he was voicing a policy espoused by airmen for years.

July Is Clear

July was a relatively clear and sunny month for residents of Magic Valley with eight days of partly cloudy weather and only one completely cloudy day recorded by the cooperative weather bureau station at the department of agriculture's entomology research laboratory here.

The prevailing wind over the valley was from the west and the monthly mean temperature was 72.1 degrees, about .7 of a degree higher than the normal rate. The highest temperature for the month was recorded July 5 when the thermometer hit 98.7 degrees. The lowest was recorded on the 18th, a chilly 42.

Precipitation for the month was a little below normal at 1.3 inches, recorded 25 inches of rainfall, about 18 below the average.

CHICAGO, Aug. 1 (AP)—Twenty-one million persons, approximately one-eighth of the nation's population, were admitted to hospitals as patients last year, the American Hospital association said today.

Big Boosts in Valuation Are Seen in Idaho

BOISE, Aug. 1 (AP)—The state tax commission today listed the assessed valuation of taxable property other than private utilities in Idaho at \$2,536,586 more than a year ago.

Harold Johnson, executive secretary of the commission, said the increase in assessed valuation was "over and above" the loss of assessed valuation of household goods, which the 1957 legislature took off the state tax rolls. He said the valuation of the household goods had been \$2,018,608 in 1956.

Only cattle in the Gem state showed a decline from 1956 assessed valuations, dropping off \$944,566 from last year's valuation of \$16,873,821.

The assessed valuation of buildings in Idaho showed by far the most marked increase, climbing \$6,277,522 over the 1956 assessed valuation of \$162,073,333.

Merchandise was assessed this year at \$1,037,530 more than the 1956 valuation of \$22,912,578; land valuations rose \$1,280,694 from last year's \$147,081,072; lumber and logs showed a \$507,674 increase in valuation over last year's figure of \$3,456,821, and the assessed valuation of machinery went up \$345,808 over the 1956 valuation of \$27,264,912.

Johnson said the increase in building assessed valuation could be expected "in view of the new construction that is being done." He added that the increase was over and above depreciation on older buildings.

He credited an increased volume of logs and lumber on hand at the assessment date as the major factor in the increased assessed valuation of this category and said the increase in land assessed valuation could be attributed to an increase in lands brought under private ownership through patent under homestead or desert entry acts.

He said diversions of agricultural lands to urban sites also had pushed land valuations up.

The assessed valuation figures showed 35 counties with increased valuations and only nine counties with decreases.

Ada county had the greatest increase with a gain of \$1,812,276 in assessed valuation. Clearwater county had the greatest decrease with a decline of \$270,587. Johnson said Clearwater county's loss was caused by the cutting off of mature timber.

He said the state tax commission would meet Monday to review the valuations as submitted on abstracts from the 44 counties. The commission members also will determine tentative assessed valuations for utilities at that time.

The commission then will hold its official meeting as a state board of equalization Aug. 12-26, Johnson said.

Company Reports Earnings Decline

NEW YORK, Aug. 1 (AP)—Diamond Match company yesterday reported net income of \$3,410,000, equal to \$1.13 a common share, for the first half of 1957. This compared with \$4,317,000 or \$1.45 a share in the first six months last year.

Sales totaled \$83,802,000 in the recent six months against \$86,488,000 a year ago.

Robert G. Fairbur, president, attributed the decline to a nationwide slump in home building which adversely affected the company's lumber business.

Old Charges Are Dropped for Man

TERRE HAUTE, Ind., Aug. 1 (AP)—The dropping of a 4-year-old Tennessee charge brought freedom yesterday to Kent E. Neilson, 27, Boise, a newly released federal prisoner.

Neilson was arrested on an old housebreaking and larceny charge from Lawrenceburg, Tenn., as soon as he was released from federal penitentiary Tuesday after serving a four-year auto theft sentence.

Justice of the Peace Lee Easton released Neilson when Chief Deputy Prosecutor John A. Kester reported that the sheriff at Lawrenceburg decided not to oppose Neilson's habeas corpus action.

'Cat Dashes Into Automobile, Dies

LA GRANDE, Ore., Aug. 1 (AP)—Sometime hit the left side of William Battison's auto with a resounding thud as he was driving on highway 395 north of Burns.

Besides a dent in the car door, Battison found a dead bobcat, apparently killed by the impact. The animal weighed 55 pounds, and measured three feet, four inches from nose to tail.

Battison, employed by a tree surgery firm, didn't keep his prize. He said he couldn't find anyone who wanted to mount it.

Nazis Reported to Have Made Plans for Restoring Windsor

WASHINGTON, Aug. 1 (AP)—Capitulation documents disclosed yesterday that the Nazis offered in 1940 to put the Duke of Windsor back on the British throne provided he undercut Prime Minister Churchill and got his people to surrender. Windsor refused despite phony bomb scares and other "threats" to his life and the life of the American-born Duchess. "The woman I love for whom he gave up the throne in 1936."

But the Nazis thought he "hesitated even up to the last moment." They blamed the Duke's legal adviser and then deputy foreign minister, Sir Walter Monckton, as the nemesis who "influenced" Windsor to reject their grandiose plan.

There was nothing in the documents about any direct contact between the Duke and any Germans. Apparently, the Germans carried on all their efforts through Portuguese and Spanish intermediaries.

The British embassy, commenting on the documents, declared they Franco who is indicated to have approved the whole idea.

The diplomatic messages and reports were released last night simultaneously by the U. S. state department and the British Foreign office. They cover German foreign policy during June 23-Aug. 31, 1940.

The papers were taken by the allies from the archives of the German foreign ministry and Reich chancellery when Berlin fell at the end of World war II. Their publication is part of a monumental historical project undertaken to shed light on the years of Adolf Hitler's power, 1933-45.

Hitler's foreign minister, Joachim von Ribbentrop, emerges as the master-mind behind the fruitless efforts to win over the Duke and Duchess.

The Planning New Aid Bill Next Session

WASHINGTON, Aug. 1 (AP)—President Eisenhower said today he will submit a new school aid bill to the next session of congress—a bill, he said, that won't put an additional burden on the neck of the American taxpayer.

At a news conference, Eisenhower said today he is very hopeful that congress will act soon to provide an adequate foreign aid bill. He said it was news to him that some senate Democrats have been complaining they could not get White House help in getting the mutual security legislation through.

Eisenhower also denied with considerable heat that the \$30,000 contributed by Maxwell Gluck to the Republican party had anything to do with his nomination of Gluck to be ambassador to Ceylon.

Eisenhower's answers as he faced more than 200 newsmen ranged from world problems to his personal finances.

Referring to a recent published report that Eisenhower's personal worth is in the neighborhood of a million dollars, the President provoked a roar of laughter by saying that if that writer offers him a million to sell out he's going to make a sale.

Eisenhower added that everything he owns is in the hands of trustees so he does not even know what his investments and similar properties are and thus could not possibly use his position for personal advantage.

On the school aid matter, Eisenhower defended his stand that the compromise 1 1/2-billion-dollar bill which the house killed last week was not fully satisfactory to him although he would accept it in order to meet the emergency shortage of classrooms.

The bill was defeated by five votes, and various proponents of the measure have said it would have passed if Eisenhower had thrown his weight behind it.

Eisenhower said his objections to the bill was mainly that it did not put enough emphasis on the need of individual states for aid.

Peace Leader Wants Arrest

LOS ANGELES, Aug. 1 (AP)—The leader of the National Committee for Non-Violent Action Against Nuclear Weapons said today he hoped members of the group are arrested during planned demonstrations against nuclear tests.

Lawrence Scott, Chicago, coordinator of the group, disclosed here yesterday that some 35 to 40 members would gather starting next Tuesday at the entrance to the Nevada proving grounds to "protest the senseless atomic testing that is morally wrong and is not leading us to peace."

He said the days selected for the demonstration are the anniversary dates of the atomic bombings of Hiroshima and Nagasaki.

The prayer vigil will begin our project of civil disobedience against the atomic energy commission's tests," Scott said. "During the period between Tuesday and Friday individuals and groups will attempt to enter the test site in violation of the law."

Hoffa Is Accused Of Rackets Tieup

WASHINGTON, Aug. 1 (AP)—The senate rackets probe accused Teamster leader James R. Hoffa yesterday of an unholy alliance with racketeers in a scheme to win control of the whole eastern seaboard.

Chairman McClellan, D. Ark., opening a series of hearings that may last for weeks, said the first big step in the alleged conspiracy was for Hoffa, with the aid of hoodlums, to gain "a stranglehold over the port of New York."

"One of the interesting facets we expect to show," McClellan said, "is that at times the hoodlums used communists or former communists because they were excellent trained organizers and knew all the tricks to get membership."

Price-Increases On Cup of Java

SALT LAKE CITY, Aug. 1 (AP)—Salt Lake City diners paid 15 cents for a single cup of coffee in most restaurants, but the coffee combined with doughnuts, cookies or toast remained a dime.

Utah State Restaurant association president Ted Spence cited increased operating costs as the reason for the price increase. About 15,000 Utah restaurant operators are members of the association and serve an estimated 80 per cent of cafe and restaurant customers in the state.

Spence said "the 10-cent cup of coffee, without food, is reminiscent of the days when coffee cost 35 cents instead of 41 a pound and cream cost 40 cents a quart instead of 87 cents."

RECORD SALES REPORTED NEW YORK, Aug. 1 (AP)—Westinghouse Electric corporation, continuing its comeback from a 150-day strike in 1955-56, yesterday reported record sales of \$92,939,000 for the first six months of 1957.

Informal

LOS GATOS, Calif., Aug. 1 (AP)—If their seats are splintery or the weather turns cold, delegates to the American Sunbathing association-travel convention are free to wear clothes, an official told newsmen as the four-day convention opened at secluded Lufth lodge yesterday.

Otherwise, delegates and their families here to attend business sessions or enjoy the swimming and sunbathing just "come as they are—or as they were, rather, when they started life."

NEW DEAN NAMED

LEWISTON, Aug. 1 (AP)—Dr. Olen C. Caldwell, 51, now a faculty member of the University of Wisconsin, was named dean of the Lewis and Clark college here at the beginning of the fall term.

Session Slated On New Talks By Carpenters

POCATELLO, Aug. 1 (AP)—Federal Mediator Dan Edwards said carpenters and contractors will get together again here Friday afternoon to continue their discussion of a 15-day-old strike.

Edwards said yesterday: "We had a very nice meeting today."

He said a session between representatives of the Rocky Mountain District Council of Carpenters and the Southeast Idaho Contractors association included a discussion of all disputed items.

The meeting was recessed to allow both sides time to review the items before the Friday session.

Edwards reported about 20 contractors represented at the Wednesday gathering. There are about 80 members in the association.

He said he has not had a chance to arrange a meeting between the carpenters' union and the Associated General Contractors of Idaho but "we're working on that too."

About 1,800 southern Idaho carpenters walked off their jobs July 17 in support of their demands for wage increases and other benefits.

Churchill Lauds U. S. High Court

LONDON, Aug. 1 (AP)—Sir Winston Churchill last night paid tribute to the U. S. supreme court and called for changes in the United Nations possibly limiting the power of small nations.

Speaking to 3,000 U. S. lawyers here for the American Bar association convention, the 82-year-old statesman said the supreme court is guardian and upholder of American liberty.

"Long may it continue to thrive!" he told the banquet in Guildhall. Three supreme court justices were in his audience.

Rocket Plane Hits 2,260-Mile Speed

WASHINGTON, Aug. 1 (AP)—The air force announced officially yesterday that the Bell X2 rocket airplane attained an unprecedented speed of 2,260 miles an hour just before it crashed last September in California.

Maj. Gen. John W. Sessums, Jr., commander of the air research and development command, gave this word to the convention here of the air force association. He said the speed attained in the X2 by Capt. Milburn Apt was nearly four times the muzzle velocity of a 45 caliber pistol bullet. Apt was killed in the crash.

Emphasizing the speeds of modern aircraft, Sessums said the Conr B58 bomber, weighing 160,000 pounds, has gone faster than tribute to a 45 bullet, or 1,130 miles an hour, while the Lockheed P104 fighter will outrun a 16-inch shell.

Fourth Accident Victim Succumbs

AMERICAN FALLS, Aug. 1 (AP)—A July 19 auto-truck accident near here has claimed its fourth life, officials were advised yesterday.

Norman E. Lynch, 49, Prineville, Ore., died there. His wife, mother and son were killed in the crash. The father gave testimony for an inquest prior to being transferred from an American Falls hospital to the Oregon city.

The only other person involved in the wreck was the truck driver, Robert Curson of Pocatello. He is hospitalized in "fairly good" condition.

The inquest is scheduled to begin late next week if Curson has recovered sufficiently to testify.

Official Avers Ad Scheme Is Not Approved

BOISE, Aug. 1 (AP)—Earle E. Koehler, Idaho law enforcement commissioner said yesterday he did not approve in its entirety a promotion plan of the Bohemian brewers of Boise which has resulted in court action.

Koehler instructed Bohemian to halt its use of an advertising sales campaign which involves the exchange for cash of certain specially marked bottle caps.

In turn Bohemian asked third district court to restrain Koehler from interfering with the plan. A hearing on the court request has been set for Aug. 2 and Koehler has postponed until Aug. 26 a hearing on his original order.

In a statement, Steve T. Collins, general manager of Bohemian, said the bottle cap plan was approved by state officials in May.

"We are at a loss to understand this reversal of opinion," the Collins statement said. "The plan was approved in May and declared a violation in June."

Koehler said that he and Warner Mills, state liquor law enforcement director, met with Bohemian officials in May when the advertising stunt was outlined. He said the program as presented appeared not to conflict with Idaho's beer law.

"Later on," Koehler said, "the actual campaign was carried out with other elements added, which when fully analyzed were considered to be in violation of the law."

Koehler said he told Collins that the plan was in violation and that the brewery manager agreed to discontinue the program.

"Following this agreement," Koehler said, "I was advised that the brewery had been instructed by the Chicago office of the Atlantic Brewing company to go ahead with its program, regardless of our agreement."

Koehler said he then began proceedings against Bohemian.

Collins said yesterday that the advertising program "as put into effect was exactly the same as it was approved in May. Our primary reason for continuing the program was because of the large investment we had in the promotion and we felt that we should have had an opportunity to get some of that investment back before discontinuing it. We felt that way because the program originally had been approved."

Falls to Death

NEW YORK, Aug. 1 (AP)—James Boone, 13, was showing a friend yesterday how he could jump across a five-foot gap between the roof of his live-story tenement and an adjoining roof. He missed his footing and fell to death in the courtyard below.

Parade Occupies Youngsters of Caswell Avenue

More than 25 youngsters got together and staged a full-scale parade Wednesday in an effort to "find something different to do." Here they are shown marching down Caswell Avenue west being led by Pamela Goldsmith, a daughter of Mr. and Mrs. V. W. Goldsmith.

Neighborhood Children Hold Parade for "Something to Do"

Anyone planning future parades might take a lesson from a group of some 25 youngsters in the area of Caswell Street west who held a parade Wednesday.

The youngsters wanted something to do. Assisted by their parents, they decorated bicycles and tricycles, smeared on rouge and lipstick, then set out to recruit more neighborhood youngsters.

After a sizable number of youngsters had been collected, outfitted with old family clothes, ancient curtains and music boxes, the happy band started down Caswell street followed by a number of barking dogs.

Leading the youthful paraders on her brown and white horse "Beans" was Pamela Goldsmith, a daughter of Mr. and Mrs. Vernon Goldsmith, Twin Falls, who acted as a one-girl mounted posse and parade marshal.

Following her in the colorful queue of children were clowns, beautifully gowned "ladies," a bathing beauty, a music-box band, and several other suitably attired youngsters.

Bond Is Set for Death in Mishap

WALLACE, Aug. 1 (AP)—Bond was set at \$1,500 pending preliminary hearing for Garnet McQuinley, 40, Lewiston, who was arrested yesterday on a negligent homicide charge.

McQuinley was charged in connection with the death of Edward R. Bray, 71, in a traffic accident near Mullan Sunday. He pleaded innocent at his arraignment.

McQuinley was arrested as he left the Wallace hospital where he had been treated for injuries suffered in the crash. Mrs. Bray, 69, also was injured.

Bicyclist Injured

Robert K. Kerley, 15, 136 Highland avenue, incurred minor cuts and bruises at 7:10 a.m. Thursday when he rode his bicycle into the rear of a 1955 Pontiac driven by Norman Leda, Twin Falls, near the entrance to Frontier Service station on Addison avenue west.

Police say the Pontiac was being turned into the station when the accident occurred. The front wheel of the bicycle was damaged.

Communist Troops Outnumber Allies; West Forces Considered More Reliable

PARIS, Aug. 1 (U.S. Military.)—Europe is divided by electrified barbed wire which the communists have strung along the "iron curtain." On the western or free side of the 8-man's land, there appears to be little if any war fever or nervousness. Prosperous and happy exterior. That condition may be a reflection of the unimpeded confidence of the men charged with defending this vital part of the world.

There are weaknesses on the west side of the front, notably shortages of anti-aircraft missiles and super-jet fighters and a ground force of 18 instead of the desired 30 divisions.

But for those who tote up numbers, this disparity appears not as great as commonly supposed. Russia's total military manpower is estimated at 4,600,000. Satellite forces of questionable value raise that figure to 6,000,000.

The West's total—including the United States and Canada, probably 5,500,000 to 5,600,000. Russia's army, unless it has made some of the cuts it said it would, is estimated at 3,200,000.

More than 900,000 Russian army troops plus air force and navy men, estimates unavailable, are in the Far East and the interior. The Soviet bloc could expand to 400 divisions in 30 days, according to military men here.

Russia, the satellite and southern Europe is about 3,100,000, including 250,000 U. S. army, 80,000 U. S. air force and 25,000 U. S. sixth fleet. These figures do not include the 400,000 French troops now in Algeria.

The Russian army has 175 divisions. About 50 of them are in the Far East and the interior. The Soviet bloc could expand to 400 divisions in 30 days, according to military men here.

The red air force numbers 20,000 planes. Substantially all of them are jets, except the probable 2,000 copies of America's World War II B-29 bomber. The satellites have 2,500 aircraft, half jets.

The red navy's chief threat is submarines, variously estimated at 450 to 500. About half of them are long-range, ocean-going types. A considerable number are in the Black sea.

From northern Norway to Turkey, the North Atlantic treaty powers today are said to have 100 active and reserve divisions, 6,000 aircraft and 1,500 naval vessels. American forces include only those assigned to NATO.

The immediate Soviet threat, U. S. army intelligence says, comprises 425,000 men in East Germany. They are organized into a 22-division tank and mechanized spearhead supported by MIG-17 fighters and light-jet bombers.

This force could be more quickly reinforced from western Russia than could their opposite numbers—primarily American and British forces—reinforced from their home bases.

The minimum force NATO military planners want on the central front is 30 divisions. They say such a force will be available when all 12 German divisions are returned from Africa. Today there are 18 divisions, not all at full strength.

NATO's expectation of reaching 30 divisions is based on hoped-for reconsideration of Britain's plan for a 26,000-man cut in its 77,000-man army of the Rhine. It also hinges on no other cuts in NATO ground forces. Britain definitely intends to cut its Rhine army by at least 13,000 men.

The shield force today comprises the five-division U. S. seventh army, most powerful ever fielded by the United States in peacetime; the four-division British contingent, two French divisions and an estimated

four divisions of the Benelux countries and Canada. The three new German divisions bring the total to 18.

The NATO land forces are supported by U. S. army Corps and Honest John missiles and 280 millimeter cannon. All can deliver atomic explosives.

The U. S. air force provides the lion's share of air power through its 12th air force in central Europe and third air force in England. Its F-100 Super Sabres are the only supersonic aircraft in the theater.

The USAP European force probably has 1,000 combat aircraft, including 700 in central Europe. More than 400 can carry atomic bombs. There are about 2,000 in England and several squadrons in Africa to protect Mediterranean bases.

The Canadian air force, operating beside the U. S. 12th, is a big 72-squadron outfit, flying both all-weather and day fighters. The

British tactical air force in northern Europe is being reduced in numbers but will get increased power to deliver atomic weapons.

On Target

PHILADELPHIA, Aug. 1 (U.S. Military.)—This is Gordon Elliot's story and he's sticking to it.

Elliot, a 45-year-old editor and advertising man, showed up at suburban Bryn Mawr hospital yesterday for treatment of a black eye. Seems he's moving to Park Ridge, Ill., to take a new job. Tuesday night, he invited some friends to his home for a farewell-champagne party.

And, as fate would have it, Elliot was hit in the eye by the cork from a bottle of the bubbly.

Accompanying the group are Miss Blake, Froehlich, Mrs. Randolph Walker, Mrs. Vernon Strohberg and Sara Nell Rosenbaum.

Chi Rho Youths Attending Camp

KIMBERLY, Aug. 1—Fourteen members of the Chi Rho young people's organization from the Kimberly Christian church are spending a week at the Cathedral Pines campgrounds, north of Kelchum.

They are Joy Walker, Don Oysthoudt, Nancy Hoos, Lucetta Caldwell, Raymond Strohberg, Ronald Butler, Lorraine Larsen, Anna Marie Walton, Joyce Froehlich, Carol Ann Long, Larry Butler, Christy McInturf, Neil Yost, and Madeline Murray.

Accompanying the group are Miss Blake, Froehlich, Mrs. Randolph Walker, Mrs. Vernon Strohberg and Sara Nell Rosenbaum.

Higher Tariff Barrier Asked On Lead, Zinc

WASHINGTON, Aug. 1 (AP)—Domestic producers today demanded higher tariffs to prevent foreign imports of lead and zinc from "flooding" the American market.

Charles E. Schwab of Kellogg, chairman of the emergency lead-zinc committee, in a statement to the house ways and means committee objected to an administration bill to impose a sliding-scale tariff on imports. He said it "falls far short" of providing a minimum "floor" price for the two metals at which the industry can regain its strength.

Schwab said the U. S. industry wants a three to five-cent per pound tariff on imports when the market falls below 17 cents per pound for lead and 14 cents per pound for zinc. The bill being heard by the committee would impose a sliding-scale tariff of from one to three cents. He said applied to zinc this would raise the current price to between 11 and 11½ cents and "provide a bare 17 cents for lead."

Building Set For Year by U. S. Bureau

SAN FRANCISCO, Aug. 1 (AP)—Details of a 180-million dollar bureau of reclamation construction program to be undertaken this fiscal year were announced today by Commissioner of Reclamation W. A. Drexler following the conclusion of the annual programming conference.

The construction program, as well as other phases of the bureau's activities for the year, is subject to congressional action. The house has completed action on the annual appropriation measure as has the senate appropriations committee. Pending action by the senate and acceptance of a conference report by the house and senate, the bureau of reclamation has been functioning by the authority of a concurrent resolution.

Construction contemplated by the bureau of reclamation this fiscal year which ends June 30, 1958, will result in a water supply for 180,700 acres of land not presently irrigated and a supplemental supply for 93,600 acres now receiving an insufficient supply. An additional 102,700 kilowatts of hydroelectric generating capacity will be placed in operation at multipurpose projects built by the bureau of reclamation in the 17 Western states.

Five new starts on projects or units of projects are contemplated although some of these are contingent upon action by the congress. They are: Little Wood River, Idaho; Crooked River, Ore.; Wapinitia, Juniper division, Ore.; and the Ainsworth and Farwell units of the Missouri River Basin project in Nebraska.

Aid Given to Coma Victim

SEATTLE, Aug. 1 (AP)—The wife of a Columbia university chemistry professor who collapsed while on a camping trip in central Washington state was reported in "good shape" here today.

A physician at Swedish hospital here diagnosed the case of Mrs. Richard Noyes, 39, New York, as diabetes with acidosis. He said routine laboratory tests would be made today but that Mrs. Noyes should be able to leave the hospital in a day or two.

Mrs. Noyes was brought here from the camping site on Mount Logan by helicopter yesterday after the coast guard had been notified she was in a "diabetic coma" and needed treatment immediately.

She was one of 33 persons camping on the mountain. A Chelan county sheriff's plane located the camping site and led a coast guard helicopter to the scene. The helicopter picked up the woman and her husband at the 5,800-foot level and brought them out.

2 Minor Traffic Accidents Listed

Two minor accidents were investigated by Twin Falls police Wednesday afternoon and evening.

An accident at 4:40 p. m. near the postoffice involved a 1955 DeSoto driven by Wendell M. Grant, 27, Maple avenue west, whom police reported was pulling from a parking place and scraped the right rear door and fender of a parked 1953 Chrysler owned by Glen S. Garman. Twin Falls Minor damage was reported.

Another accident at 7:43 p. m. at Five Point East involved a Ford pickup driven by Calvin A. Mosher, 36, Weller, pulling a trailer house. Police reported Mosher was turning from a right hand land from Kimberly road onto Blue Lakes boulevard and the back end of the trailer swung around and scraped the front door of a 1945 Ford driven by Lynda Jean Brown, 17, route 1, Kimberly. Damage was minor. No injuries were reported in either accident.

Hog Market Sets Three-Year Mark

CHICAGO, Aug. 1 (AP)—Hog prices hit their highest level in nearly three years yesterday.

Buyers at the Chicago stockyards paid \$22.85 a hundred pounds for a 51-head lot of butcher hogs that averaged 237 pounds. This was the highest price since Aug. 24, 1954, when a top price of \$23.00 was established.

Trips Taken

HANSEN, Aug. 1—Mr. and Mrs. Frank Myers and children, Georgetown, O., have returned home after visiting her uncle and aunt, Mr. and Mrs. Joe Froehlich, and family. Daniel Ferebee, Tijuana, Mex., has been visiting his sister, Mrs. Edward Stephens.

New Store Opens In Gooding Area

GOODING, Aug. 1—Formal opening of Tingwall's department store in the new building was held here Wednesday night. The original building was destroyed by fire last November.

Wayland and Cline, Boise, were architects for the structure. Daryl Keck, Jerome, was general contractor and sub-contractors were Jack Diamond, Boise, painting on new fixtures; Levi Gifford and Don Driesle, Jerome, brick and stone; Idaho Electric, Jerome, wiring and fluorescent lighting; Mildren heating and plumbing, Jerome, air-conditioning, heating, sheet metal, plumbing; Blaine Christopherson, plumbing; Thompson Truck company, Gooding, excavation and concrete; Tilley's welding and machine shop, Jerome, grill work, and Haynes brothers, paint contractor.

No One Injured Yet in Little War Watched by Whole World

SHARJA, Trucial Oman, Aug. 1 (AP)—A little war of great significance is slowly moving toward a climax here on the "steamy, palm-fringed shores of the Persian gulf."

Back in the days when the sun never set on the British flag, it would have been considered nothing more than a tribal dispute and largely ignored. But it is different today because Britain has her back to the economic wall and is fighting desperately to retain what remains of her empire.

No place is more important to Britain than the Arabian area with its massive oil production that keeps Britain's industry going. For this reason, the British are ready to risk a reputation already damaged by the Suez attack to squash a hill

whose oil is a bulwark of the British economy.

So far this war has been one of more significance than gunfire. There hasn't been any ground fighting since the Imam's brother, Talib, suddenly appeared from exile in Saudi Arabia July 15 at the head of a band of 150 well-paid and well-armed followers.

The sultan's small force at Nizwa in the mountains, a group of barefoot youths led by British mercenaries, immediately hotfooted it toward the coast without even a clash. Three of the sultan's officials were killed when their car ran over a land mine. The force is now "regrouping."

When word reached the big detachment at Oman, a regiment with a half dozen British officers commanding sent a large patrol up into the mountains where it met stiff resistance including automatic weapons fire. A British officer was nicked in the arm and about a dozen

others were wounded in the brief clash.

The rebels rapidly took control of a 100 by 50-mile plateau area and that's where the situation stood until the royal air force was ordered into action.

It is a war for no one but the sweating RAF pilots and crews who work through the daylight hours shooting up the massive mud and stone forts taken over by the Imam's rebels.

Forty-eight hours before they attack a fort, they warn the people to clear out of the area. Then they shoot up the fort for a whole day, and next day go on to another.

An RAF spokesman explained that this will intimidate the rebels but he has had little success impressing his fellow officers. "What we ought to do," said a sweating, bare-chested Trucial scouts officer, "is warn the people to deliver the Imam and Talib—either whole or just their heads. We should give them a schedule of villages which would be napalmed and their date groves burned and sick to it. Believe me, they'd deliver them."

Wobbly

KINGSTON, Tenn., Aug. 1 (AP)—J. B. Cook, charged with stealing his bicycle in and out of traffic, failed to talk his way out of a drunken driving charge despite this explanation: "There's a lot of play in these handle bars."

sultan had an agreement whereby the Imam wielded certain jurisdiction in the inland areas.

But Ghalib has never really accepted the sultan's authority on the heavy taxes whereby farmers must pay a "sales tax" on every egg they bring to market. This built up resentment as did the fact the only time the sultan visited the interior was at the head of an armed convoy after a similar rebellion two years ago when he demanded recognition and obedience of the people.

Poland Faces Big Economic Misery Again

By United Press
Independent communist Yugoslavia has won a big victory in economic negotiations with Soviet Russia.

But Poland is still in serious economic trouble and there is no immediate prospect that it can get either from Russia or the United States the aid it needs to safeguard its semi-independent status.

President Tito of Yugoslavia decided recently to test the Soviet government's expressed desire for better relations by asking it to make good on unfulfilled promises of 250 million dollars in credits.

Get Promise
A delegation of economic experts which he sent to Moscow has returned to Belgrade with a promise that the credits will be given.

The United States granted Poland credits totaling 95 million dollars in return for farm products and mining supplies to strengthen its weak economy and help it to maintain the large measure of freedom it has won from Russian domination.

The first shipment of 1,168 tons of wheat under this credit arrived at the Polish port of Gdynia on July 24.

But Poland had asked a total of 300 million dollars, and there is no doubt that that much was almost desperately needed.

While the final stage of Polish-United States negotiations was approaching in Washington, Polish communist leader Wladyslaw Gomulka went to Moscow at the head of a trade delegation to seek help.

Gomulka asked that Russia pay Poland 75 million dollars it has owed for years for transporting goods and troops between Russia and East Germany. He also asked Russia to increase shipments of iron ore to keep Polish steel mills in fuller operation.

Loses Temper
Gomulka got nowhere. It is reported that Soviet communist leader Nikita S. Khrushchev lost his temper during a conversation with Gomulka. He is said to have told Gomulka that Poland is "milking" Russia and that it had better go elsewhere for help. Khrushchev was referring to Poland's request for American aid.

Shortly afterward, Khrushchev sent Soviet First Deputy Premier Anastas I. Mikoyan to Warsaw to smooth over the bad feeling caused by his outburst. Mikoyan is understood to have told Gomulka that the Soviet government would "study" his request for the transit payments. But there has been no indication that the payments would be made.

Naturally it is in Russia's interest to keep Poland economically weak. Any strengthening of Poland's economy would strengthen its bid for freedom from Russian domination.

Poland seems determined to preserve the independence it has won. Premier Josef Cyrankiewicz, who was regarded as a "Stalinist" before the Polish revolt of last October, said in a speech on July 22 that Poland is determined to pursue its "own road to socialism."

Cyrankiewicz said also that it was necessary for Poland to pay attention to what is happening in Yugoslavia and in communist China, which is going out of its way to emphasize that it regards itself as the equal of Russia in communist doctrinal authority.

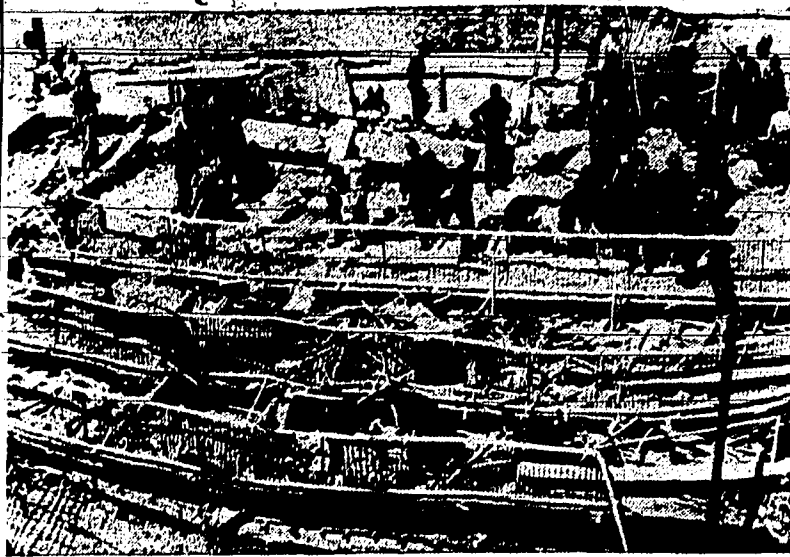

But Poland's economic weakness is a big handicap. The Soviet government is sure to use this weakness if it can to keep Poland from going any further on the road to complete independence.

More Negroes Registered to Vote Now Than Ever Before in Southern States

ATLANTA, Aug. 1 (AP)—More Negroes are registered to vote in the South today than ever before and the number is growing steadily. But they still lag far behind the White voters.

Negro leaders say the fact that only 25 per cent of the eligible members of their race are registered to vote is largely due to discrimination. About 60 per cent of eligible Southern whites are registered.

Many Southern officials—all of them White—attribute the low Negro registration to a low educational level among Negroes. In other words, fewer Negroes than Whites are able to meet state-prescribed voter qualifications.

In its latest survey, the privately-financed Southern Regional council reported that at least 1,238,000 Negroes in 13 Southern states are registered among a Negro voting population of nearly 5,000,000. This is a gain of nearly a quarter-million since 1952.

The storm center of the Negro voting controversy is the county How many U. S. senators are there registrar of voters who in some states—like Louisiana and Mississippi

is giving broad latitude in determining who passes qualification tests. Other states, such as Florida and Georgia, have more specific laws.

A registrar in Mississippi, for example, can rule a person unqualified to vote if he fails to interpret, to a given section of the constitution to the official's satisfaction. Under new voter laws, an essay on good citizenship is also a requirement for a new Mississippi voter registration.

Gov. J. P. Coleman insists that Negroes "as a race" are not denied the right to vote in Mississippi and are the reason for their low registration, estimated at 25,000 last year, is that others are simply not qualified.

Georgia law lets any law-abiding citizen who can read and write a section of the constitution register. If he cannot meet this requirement, he can still get on voter rolls by answering at least 10 of 30 questions. Examples: Who is the President? How many U. S. senators are there from Georgia?

"Negroes are not denied the right to vote in Georgia," says Gov. Marvin Griffin, an unwavering segregationist.

In Atlanta and other metropolitan areas, Negro registration is heavy but in two Georgia counties with a total Negro population of more than 3,000, not a single one is a registered voter.

Two years ago, officials in Randolph county, Ga., purged some 500 Negro voters from the rolls but, through a federal court injunction, 125 gained their voting rights again on grounds they were removed solely because of color.

Sen. Richard Russell has used the case to back up arguments that voters who are discriminated against are adequately protected under present laws.

The fear that Negro voting might swing the balance of power in local elections has touched off scattered efforts in the South to purge voters and ward off heavy registration in the future. White citizens' councils attempted this in some Louisiana counties with considerable success, but in one instance it backfired.

In Minden, La., Mrs. Winnie Richmond News-Leader.

Clement, 58, a county registrar began administering the registration laws in what she regarded as a discriminatory manner. She had 100 Negro voters she "bounced" off the rolls were White.

One of the most direct assaults against Negro voting qualifications was launched this summer at Tuskegee, Ala., where the state legislature altered city boundaries to push all but 10 Negro voters beyond the city limits. Another bill is pending which would abolish Macon county, predominantly populated by Negroes, and divide it among five neighboring counties.

In Virginia, even the National Association for the Advancement of Colored People concedes that in most cases, Negroes are not denied the right to vote. "Virginia and the other Southern states still have poll taxes, one of the big obstacles to registration by Negroes in the economic classes."

Negroes in Richmond, Va., have doubled their voting strength since 1945 and their votes came due to electing a member of their race to the state legislature this summer.

The embarrassing fact is that Negroes voted on July 9 at approximately double the rate as when White voters turned out," said the Richmond News-Leader.

New Bride Feted
At Hailey Parties

HAILEY, Aug. 1—Mrs. Leonard Knight was honored at a post-nuptial shower Tuesday evening at the Hotel Hiawatha dining room. Hostesses were Mrs. Mary Allred, Mrs. Mary Cameron, Mrs. Orville Boulden and Mrs. Grant Hawkes.

During the evening a comic skit was presented by Mrs. Eldon Amos, Mrs. Allred and Mrs. P. Ozburn. Mrs. R. H. Wright played the piano for the group singing.

Mrs. Knight also was honored at a shower last week at a potluck supper at the home of Dr. and Mrs. Grant Hawkes. Co-hostesses were Mrs. Morgan DeBoer, Mrs. Delmer Nicholsen and Mrs. Milton Savaria. The evening was spent on the lawn of the Hawkes home playing charades around a bonfire.

Social Calendar

Diamond Squares will hold a dance at 8:30 p. m. Friday at the former "N" club. All square dancers are invited. Those attending are asked to bring dessert or sandwiches. William Coffield and Walter Will will be callers.

Boots and Bustles Square Dance club will hold its annual family picnic Sunday afternoon at Nat-Soo-Pan. Swimming will precede the 5 p. m. dinner. Those attending are asked to bring a fried chicken, covered dish and soft drinks. Ice cream will be furnished.

Vishnu camp No. 2070, Royal Neighbors of America lodge, will have a potluck picnic at 7 p. m. Friday at Harmon park. Prospective members are invited. Hotdog sandwiches will be furnished.

Daughters of M. Sandgren will hold open house from 2 to 5 p. m. Sunday at 116 Thirtieth avenue north honoring the 90th birthday anniversary of their father. It is requested no gifts be sent.

Mrs. Ray Montgomery will be hostess at the Neighborhood club meeting at 8 p. m. Friday in the home of Mrs. Jack Atkinson, 228 Filer avenue.

A softly draped bodice, and your favorite six-gore skirt—wonderful lines indeed, for the shorter, fuller figure! This printed pattern makes you look inches taller, sizes slimmer! Printed pattern 9237: Half-sizes 14½-16½, 18½-20½, 22½-24½. Size 16½ requires 3½ yards 39-inch fabric.

Printed directions on each pattern part. Easy, fast, accurate. Send 50 cents (plus for this pattern—add five cents for each pattern for first-class mailing. Send to Marian Martin, care of Times-News, Pattern Dept., 232 West 18th St., New York 11, N.Y. Print plainly name, address with zone, size and style number.

Patterns that are kept covered while waiting are more evenly moist than those that are not covered. A cover prevents the fabric from forming a dry coating on top.

Diane Wilson Is
Engaged to Wed
Merlan O. Ellis

BURLEY, Aug. 1—Mr. and Mrs. Charles M. (Dick) Wilson announce the engagement of their daughter, Diane, to Merlan O. Ellis, son of Mr. and Mrs. Leonard Ellis, Lorenzo.

Miss Wilson, a 1956 graduate of Burley high school, is a student at Ricks college, Rexburg. She is editor of Ricks college yearbook for the coming year and a member of the Upsilon club, Valkyrie service organization and active in other school functions.

Ellis, a 1955 graduate of the Rugby high school, has completed two years at Ricks college where he majored in marketing and accounting. He recently left for a two-year mission for the LDS church to the southern states. No date has been set for the marriage.

California Pair
Present Slides

HAILEY, Aug. 1—Mr. and Mrs. Floyd Shields, Indio, Calif., who are spending some time in Hailey, entertained friends Monday evening at their trailer house in the city park Monday with a showing of some 600 colored slides taken by Shields during trips through South America. A second showing of additional slides will be made Tuesday evening.

Mr. and Mrs. Shields have just returned from a trip through Alaska and will show their pictures taken while there as soon as the negatives have been processed.

Shields is owner of the Shields Date farm at Indio.

Pre-Nuptial Fete
Is Held for Miss

SHOSHONE, Aug. 1—A shower for Marsha Adkins, bride-to-be, was held Saturday at the home of Mr. and Mrs. Frank Lequiere with Diana Lequiere and Leola Whitehead as co-hostesses.

Out-of-town guests were Mrs. Dorothy Blair, Twin Falls; Carol Henry, Jerome; Emma Lee Berry, Wendell; Irene Tanaka, Sun Valley, and Ellen Innes, Challis.

LAD IS HONORED

HAILEY, Aug. 1—Curtis Carey celebrated his 8th birthday anniversary Tuesday with a party at the home of his parents.

Care of Your Children

By ANGELO PATRI

All of us have a tendency to think that what pleases us should please others too, especially when we are concerned about children.

"Here I buy him the best violin on the market and what does he say? 'I don't want a violin. I want a trumpet.'"

"What's a trumpet beside a violin? It's a trumpet and to the boy's ear it has a far pleasanter sound than the violin. He may, in time, come to like the music or the violin better than that of the trumpet and again he may not. Why should he feel what someone else feels just because someone else feels it?"

Some parents grow angry when a child does not care for the music, the scenery, the food they like. It is a human frailty but it is not good sense. There are people who are happy listening to jazz while others purr during an opera; some like level ground and enjoy the prairie; some like avocado pears and others dislike them. Why not?

If grown-up people would only pause in their haste to form the minds and habits of the children and young people in their care to think how they would feel if someone stronger in every way than they insisted upon their liking what they dislike for no other reason than that the stronger one liked it they would be less severe on the young ones.

When custom seems to make a certain food a must for children, a

The loose suit jacket and the belted suit make the No. 1 and No. 2 suit silhouettes for fall. The loose jacket may be semi-fitted, boxy or straight. We show the belted suit with its companion coat (left) in green tweed by Davidow. The four-button coat covers a slim, belted suit. The straight jacket that rests lightly on the hips (center)

is the suit look that every top designer likes. This one, in eadet blue wool, is by Harry Frechtel. Pockets are banded in leather; the jacket has flat brass buttons. From Christian Dior's American collection comes (right) this belted suit with longer pocket that's gathered and bloused at the back. Front has large patch pockets and scarf neckline.

HAILEY, Aug. 1—Mrs. George McCoy entertained her bridge club Tuesday evening at her home. Mrs. Elvin Shipp received high prize. Mrs. Robert Werry, traveling, and Mrs. Richard Stephens, low.

Extended Efforts
Of Homemakers
Asked for Road

Homemakers experienced in the art of persuading members of the family to pick up their belongings in the interests of a neater home are being encouraged to extend their efforts this summer when the family takes to the open road.

A major national problem is the untidy "travel trash," the tons of refuse tossed on highways, beaches, parks and other public areas. Not only does it deface the countryside, but it presents health, fire and safety hazards.

Probably none of us is innocent of having contributed at least a gum wrapper or an empty cigarette package to this mess. As auto travel increases the problem grows more acute.

And more expensive. According to one source, more than fifty million dollars of tax money are being spent annually for cleaning up primary highways alone.

What's to be done? It's no coincidence that the "litterbug" is being publicized as a nuisance of undesirable importance. Three years ago a national movement was organized as Keep America Beautiful, Inc., to

help make us conscious of the litter problem.

Every state has endorsed its objectives. Its educational efforts are directed through schools and civic organizations.

In Maryland, the first state to organize a state-wide movement, the federated garden clubs have sponsored anti-litter contests and campaigns with the Junior garden clubs to teach youngsters the desirability of taking care of public as well as personal property.

One of the most efficient ways devised by KAB to curb travel trash is the litter bag. This amounts, in essence, to a convenient wastebasket in the car.

Any paper bag, like an ordinary grocery sack, will do. It is taped to the auto dashboard. For back seat travelers, tape a bag to the side window sill.

Into this bag should go all the paper scraps, gum and candy wrappers, and so on. Nothing is hurled out the window.

The KAB recommends keeping a few medium-sized bags in the car. If you're making a trip. When one is filled, deposit it in the next trash barrel.

Most service stations now have trash barrels displayed prominently. On a recent auto trip, I noted big trash barrels in service stations, near roadside eating stops and more of them in public picnic areas. Some of the service stations even gave

Date Is Tentative

SHOSHONE, Aug. 1—Shoshone schools probably open on Aug. 26, Supt. Ralph Villers reports. Previously the opening date was announced as Sept. 3.

Definite decision on the date will be made by the school board at a meeting, Aug. 12. Villers said, but the custom in the past has been to open school the latter part of August in order to allow for harvest vacation later in the fall.

Club To Meet

SHOSHONE, Aug. 1—Lucky club will meet at 8 p. m. Friday at the home of Mrs. Joe Oneda. Officers will be elected, Polyanna revealed, new names drawn and award will be presented for the best attendance.

We, the Women

By RUTH MILLETT
NEA Service

"The catch to having children said a grandmother awaiting the rival of her latest grandchild, that never as long as you live you think 'We won't have to see about our children any more' the time just never comes."

No, it doesn't. But isn't it that we keep thinking it will? When a baby is small and helps us think we will worry about less when he is walking and talking.

But when he starts to walk, find that he is in ever-increasing danger as he curiously pokes everything and goes his heedless way.

So we think what a blessing it be when he can go to school. School brings more problems to worry about.

Ten-age brings still more. We still worry when the time comes for him to marry and start a family. Once a mother or father, always mother or father.

The only trick that can save from unnecessary worry and being is to decide, when we taught a child all we can, that life is now his own.

No parental worry is going to one bit. In fact, an anxious parent is just a problem to the grown-up trying to meet life confidently.

But it takes faith and courage to stop the worrying that has been a habit. And it can never be achieved completely and for all time. That is, as the grandmother to the catch to having children, time never comes when a parent says, "Now I have it made."

Members From U. S. Host Red Chinese Youth

MOSCOW, Aug. 1 (U.S. American)—Participants in the communist-sponsored World Youth festival yesterday entertained communist Chinese delegates at a party.

Some American delegates spoke up to deny red Chinese charges that U. S. businessmen desire war. They urged the Chinese communist delegates to come and see conditions in the United States.

There were no "awkward incidents" reported such as last Sunday night when 21-year-old Stan Munford of Walnut Creek, Calif., was held four hours by armed guards at a Soviet factory compound.

Munford had climbed a wall and found himself in a Moscow machine factory.

"It was all a misunderstanding," Munford, a one-time honor student in pre-ministry studies at Whitworth college in Spokane, said. "I found myself in somebody's back yard, scaled a wall and found myself to face with this armed guard."

The Russian guards at the factory accused Munford of photographing the factory and questioned him for four hours. They confiscated the roll of film in his camera and released him finally with apologies.

"We hope we have not made you angry," Munford quoted one Russian as saying, "but it's against the law in the Soviet union to climb walls or even trees."

Munford spent a year as an exchange student in Scotland and planned to return to Whitworth this fall.

Senate Probe Is Lashed at Labor Parley

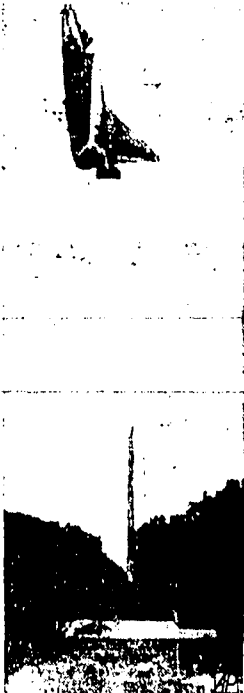

PORTLAND, Aug. 1 (AP)—Delegates at the closing session of the Western states Conference of Machinists yesterday adopted a resolution saying "police state tactics" were used by the senate rackets investigating committee.

In another resolution, delegates went on record against the appointment of former Interior Secretary Douglas McKay as United States chairman of the international joint commission.

In condemning the rackets committee, a resolution was approved which said "The objectives sought by the committee and their supporters would, if passed into law, establish a semi-dictatorship in this country."

Other resolutions voiced approval of a high federal Hells canyon dam and the civil rights bill. The resolution on civil rights said Oregon's senators should vote for the bill pending in congress "without any qualifying amendments."

Trouble Fails To Keep Flier From Victory

SYRACUSE, N. Y., Aug. 1 (AP)—Peter R. Phillip, the jet pilot who won the Ricks memorial trophy race with an average speed of 838 miles an hour, did it in an unauthorized cockpit.

The major, now training here with the 12th fighter group of the Pennsylvania Air National Guard, said he was pressure gave out in the cockpit as he neared the one-third mark on his cross-country race Sunday.

The 35-year-old pilot said yesterday the pressurizing equipment which keeps the cockpit at a comfortable temperature at high altitudes, "began smoking and making a terrible racket" near his Tucson, Ariz., refueling stop.

"I wasn't frightened," he said, "if a pilot knows his airplane there's no cause for alarm when something like this happens."

The McKees Rock, Pa., pilot said he really got warm at low altitudes. "I was soaked with sweat all the rest of the way."

He made two more stops before sitting down at Andrews air force base near Washington for a new Ricks trophy race record of 11 hours, 13 minutes and 40 seconds. He beat 11 other jet pilots.

All the contestants in the air national guard-sponsored race from Fresno, Calif., to the Washington base flew Republic P-84F jets.

Mr. Phillip said, "I used a higher climb speed to beat the others."

Long Talk Costs Year's Sentence

LOUISVILLE, Ky., Aug. 1 (AP)—A talkative man who couldn't resist calling his girl in Denver was sentenced to a year in prison yesterday in criminal court.

Eugene Williams, 21, received the sentence after he pleaded guilty to warehouse breaking. He said while he was in an automobile repair shop, he called his girl friend and talked for 71 minutes.

When the owner of the shop received a bill for \$32, he informed police who investigated and arrested Williams.

The girl was not identified.

Cowboys Raise League Lead Again With 8-5 Win Over Boise; Loudenback Homers

BOISE, Aug. 1 (AP)—Three Magic Valley pitchers held down the Braves Wednesday night as the Cowboys chalked up an 8-5 win over Boise. The visitors used the win to widen their lead in the Pioneer league, getting help from two other teams along the way. Both Billings and Idaho Falls who were just a game

Phillips-Wells Cops City Softball Crown

Phillips-Wells softball team was crowned city champions Wednesday night as the industrial league season drew to a close. The Phillips-Wells team, who went through both first and second halves of the season undefeated, clinched the title earlier in the month, but official announcement was held up until the end of league play.

Sports FROM ALL ANGLES

By LARRY HOVEY
It seems every team has one man who, through his actions, story telling or through his career attitude helps break the monotony of the otherwise uneventful baseball season. And the Cowboys have theirs in Russell Wingo, who can qualify in just about any of the classifications listed above.

A pitcher, Wingo has adopted the attitude of the old pros viewing the game and always has his 16 team members off guard with some statement, antic or what have you.

But of all his virtues, Wingo's talking ability is his strongest off-field point. While telling the truth essentially, he sometimes remembers just a little more. The other Cowboys have their troubles in deciding which of his statements should have the few grains of salt added and which should be accepted as fact.

But they figured they had Russ during a recent traveling trip when the big right hander candidly reported he had beaten out the latest craze of the nation—crooner Pat Boone—in a high school election. But their ribs and jeers couldn't shake Wingo from his story, so it of course had to be resolved with the time honored way of "putting your money where your mouth is."

In fact, so skeptical was the busload of players that Wingo got a bet out of everyone including the driver. So at their next stop, Wingo scribbled a letter to his home and when the Cowboys got back, there was a 1957 high school annual from his wife. And you guessed it. Wingo picked up \$17 in the exchange and the Cowboys were left even more confused about their volatile teammate.

For the truth of the matter is that Wingo did beat out Boone for the student body presidency at David Lipscomb high school in Nashville, Tenn.—Wingo—reports there were four in the initial race and he and Boone were forced into a special run-off.

But he goes on to explain that he vacated the office in favor of Boone because "I couldn't get up and preach and speak publicly like Pat could." He said after the election, he gave it up voluntarily for "the good of the school."

Wingo says he had an edge over Boone because he was better known through his athletic ability. Wingo played all four sports while Boone was eighth man on the basketball team and third baseman for the high school baseball squad.

"He's a good guy, not stuck up like so many of the big names are," Wingo reports.

When he first came here before the second half of the season started, Wingo was dubbed "moneybags" because he drives a Cadillac and has a spare "Cad" for his wife. (He acquired his extra "pin money" for the cars by playing winter ball

in Maracibo, Venezuela.) After taking a couple of trips on the Cowboys bus, he decided it was comfort left much to be desired. So when they returned he jumped Ed Schneck about providing new transportation. Knowing the club's financial condition Schneck declined the invitation.

Whereupon, Wingo is reported to have told Schneck, "I'll go down and have somebody drive four or five buses past the office. You pick out the one you like and I'll buy it for you."

That Peaks was running "pretty good."

"He looks great out there. We have him working at defensive line-backer and he plays the spot as though he had been doing it all his life," said Lamborn. "I think the Eagles got a lot of ballplayer by making this boy their top draft pick."

Peaks started in the quarterback slot at central high school in Flint, Mich. It was there he caught the eye of Don Coleman, his Sunday school teacher and a former Spartan great.

Coleman talked the speedy back into going to State but when he got there he found "quarterbacks hanging out of every locker room window." So coach Hugh (Duffy) Daugherty asked him to switch to halfback. He made the changeover so well that he was consistently among the top ground gainers in the Big Ten.

At the end of his college career, Daugherty asked him, "he was the greatest back I have ever coached." "I still want to play a lot of football. I hope I can make it with the pros," Peaks said.

"I still have a few college credits to pick up. I want to get into radio or television, settle down and be a family man when I can't play football any more."

Peaks' ability as a singer made him popular in college where he was with a fraternity group which "did a little recording."

"I don't have much time for singing at the moment," he said. "Except maybe in the shower after we beat the Giants."

The big Cowboy-inning was the ninth, when four runs were produced on four singles and four walks. Single runs came across the plate in the first, fifth, eighth and ninth. Magic Valley had 12 singles, a double and a homer for the night.

The homerun was knocked off Carl Burford by Denny Loudenback in the ninth with no one aboard.

Boise first-bagger Frosty Kennedy got a homer in the eighth with an error on the bags and that ended the Braves' scoring.

Boise had a 3-1 lead at the end of the first stanza. They collected the three on two singles, Kennedy's double and two more singles. Russ Wingo stepped in as the Cowboy relief and set the Braves down in order in the next four innings.

A's Waste 3 Homeruns as Bees Win 5-4
SALT LAKE CITY, Aug. 1 (AP)—Three homers failed to help Pocatello Wednesday night as the A's dropped a 5-4 Pioneer league contest to the Salt Lake Bees.

Salt Lake was blanked for seven innings but won the tussle with three runs in the eighth and two in the ninth.

Pocatello led 2-0, after the first frame and the A's picked up single tallies in the eighth and ninth. Three of the scores were solo round-trippers by Dick Rogers, Aurelio Ala and Ron Glasgow.

The losers tried four pitchers against the Bees, who garnered only five hits during the night. Three Bee hurlers gave up seven clouts to the Pocatello nine.

Acc Salt Lake pitcher Fern Carson got his 12th victory of the season against four losses and Hank Strass of Pocatello was charged with the loss though he was on the mound for only one frame.

100TH HOMER
NEW YORK, Aug. 1 (AP)—Yogi Berra's third inning homer against the Kansas City Athletics Tuesday was the New York Yankees' 100th of the season, and it marked the 34th year they have totaled at least 100 homers.

High Elevation Fishing Is Best

BOISE, Aug. 1 (AP)—Fishing in Idaho lakes and streams at the lower elevations has slowed as a result of hot weather but the state fish and game department said Wednesday that the high mountain lakes and streams still are producing.

The department warned that timberland areas are extremely dry and the fire hazard is acute. Salmon fishing remains fair, the department said, but it is "beginning to taper off in some areas. The peak of the run is past in most major salmon areas."

Cardinals Call up Farm Club Pitcher

ST. LOUIS, Aug. 1 (AP)—Billy Muffett, strikout leader in the Texas league with a 14-6 won-lost record, has been called up by the St. Louis Cardinals to replace veteran Murry Dickson, put on the disabled list.

The Red Birds purchased Muffett's contract from Houston Tuesday, the same day the 40-year-old Dickson was shelved for 30 days with a sore arm.

Manager Fred Hutchinson indicated he intends to use the strong-armed right hander as a double-duty man.

"What we need is someone who can both start and relieve," Hutchinson said.

Muffett, 25, has pitched 14 complete games for Houston, walked only 64 and struck out 159 in 188 innings. He has given up 48 runs.

Missoula Uses Big Inning to Beat Billings

BILLINGS, Mont., Aug. 1 (AP)—The Missoula Timberjacks battered together six singles, a walk and a pair of errors for eight runs in the fourth inning Wednesday night and beat Billings 12-3.

Tony Tegenkamp came up as his to the losing Mustangs one of a pair of errors for eight runs in the fourth inning Wednesday night and beat Billings 12-3.

Dick Greco hit his 23rd homerun in the sixth with nobody on base. Tucker hit another solo homer for the Jacks in the second.

Tegenkamp had a four-hitter once into the ninth but raised up a bit with a 12-2 margin. It was his 1002nd win.

The Mustangs started Ernie Evans who took the loss. Ted Burgess relieved him in that big fourth inning after five successive angles and a hit.

In addition to Kroll last year, other "world" winners include seasoned Julius Boros, twice, Lew Worsham, Ben Hogan, Henry Ransom, Johnny Palmer, Lloyd Mangrum, Sam Snead, Byron Nelson and Jug Spaden.

Finsterwald, runner-up in the recent national PGA is second on the official money winning list with \$23,385.

All-Star Game Means Job Security for Halfback

EVANSTON, Ill., Aug. 1 (AP)—A quiet, genial halfback, acknowledged by many experts as one of the most powerful running backs in the nation at the start of the 1956 college football season, figures he may get job security out of the college All-Star New York Giant tussle Aug. 9.

"This game really means a lot to me," said Clarence Peaks, former Michigan State back who was on almost everyone's pre-season All American last season.

"If the leg holds up okay I hope I can give the Eagles some help this season—if not I may have to look for another job," he said while lying on the rubbing table of the All-Star training room.

Peaks spent most of the season on the sidelines last year after tearing a knee cartilage early in the MSU-Illinois game, which the Spartans lost 20-13.

"They said I did it chasing him," Peaks laughed, pointing across the room at one of his All-Star teammates and good friends, Abe Woodson, shifty Illinois back who ran wild against the Spartans.

"That's not quite true. If I had been chasing him I would have got him," Peaks said.

College of Idaho, Idaho State State Football Game For Twin Falls in November

Idaho State college and the College of Idaho will meet in Twin Falls Nov. 23 in the 37th annual of their football series, reports James F. Blake, president of the Twin Falls Exchange club, which is sponsoring the event. Blake said the final negotiations were completed Wednesday between the local club and both schools. The game will mark the first time Idaho State has played in Twin Falls since 1948, when they drubbed the now defunct southern Idaho college of education in the season's final game.

The longest intra-state series in the history of college football is the Bengal-Coyote game at Boise, which has drawn large crowds from their respective communities and two special trains and many motorcades expected to converge on Twin Falls, Blake said. Last year's game drew a crowd of some 6,000 fans and students from Pocatello following their favorites. Blake said with the game being almost the center of the town, at least one out-of-towners are expected. In addition to being the longest game in the state, the series is one of the closest with College of Idaho winning 19 of the 36 contests. Another interesting point in the series, Blake notes, is there had never been a tie game played.

Great Falls Coasts to Win Over Russets

GREAT FALLS, MONT., Aug. 1 (AP)—The Great Falls Dodgers scored all but runs in the first three innings Wednesday night and coasted to a 10-0 Pioneer league triumph over the Idaho Falls Russets.

The Dodgers are occupying the second place in the Pioneer league behind the Idaho Falls Russets.

Ida Wiley drove in the first double run of the night with a triple. Great Falls collected three more in the second as Gus Sanchez's double pushed in two and a bases loaded walk accounted for another.

The Dodgers ended their scoring efforts in the third after Todd Sells' double was followed by a pair of singles.

The Russets got a lone run in the fifth when Mo Benedict walked, scored to second on a wild pitch and came in as Jess Queen tripped. Russes catcher Al Luce homered over the right field in the eighth for the final Idaho Falls score of the evening.

Gavilan Decisions Gaspar Ortega

MIAMI BEACH, Fla., Aug. 1 (AP)—Mid Gavilan took a long step on the road back when he punched out a unanimous 10-round decision over Gaspar (Indian) Ortega of Mexicali, Mexico, in a nationally televised fight Wednesday night in the auditorium.

The former welterweight champion won the unanimous decision of 10 judges and referee Jimmy Peers, who with a bruising body attack that raised welts on the Indian's torso but never knocked him down.

Jackson's Hospitalization Won't Deter Champ From Best Effort With Amateur

NEW YORK, Aug. 1 (AP)—Heavyweight champion Floyd Patterson says the hospitalization of Tommy (Hurricane) Jackson won't deter him from going all out against Olympic champion Pete Rademacher in their Aug. 22 title bout in Seattle. Asked if he feared he might injure the professionally unproven Olympic heavyweight champion of 1956, Patterson replied: "No, I would have to regard him like I did Jackson and other strong opponents. He's a big, strong fellow. I hear. He's been boxing 10 years and anyone who wins an Olympic title has to be good to beat the world's best amateurs. I'm going to be fully prepared."

Rademacher, a 6-11, 212-pound former football lineman from Washington state and Grandview, Wash., captured the Olympic title at Melbourne with three straight knockouts. He is slow moving but can take punches fast. Amateur fights usually are for three rounds only, however.

Asked if he thought Rademacher was a fit opponent, Patterson said, "I'll fight anyone my manager matches me with. He does the matchmaking. I do the fighting."

Patterson has been guaranteed \$250,000 for the fight and his manager, Gus D'Amato, said that Rademacher's backers also have put an additional \$100,000 in escrow to guarantee a return bout should Pete win the title.

D'Amato said the Rademacher fight won't be telecast. "And further," added D'Amato, "the heavyweight champion's fight will not be available for home television until one of the weekly network television fights shows is operated by an independent promoter."

D'Amato, feuding with the International Boxing club which promotes the weekly Wednesday and Friday night TV fight programs, said competition would enable fighters to get more money.

"I can still fight and win," said Jackson, who has a 29-6-1 record. "I been hit hard before. I want to get back in training and fight again."

Physicians said he had suffered a bruised kidney as a result of the beating.

British Seek Win In Tuna Derby

WEDGEPORT, N. S., Aug. 1 (AP)—The British will seek to become the first four-time winner of the 20-year-old International Tuna cup match to be held here Sept. 10-14. The British won the title last year for the third time.

T. J. Wheeler of Toronto says his squad will include A. C. De Villiers of Salisbury, Southern Rhodesia; Dr. J. C. Nel of Transvaal, South Africa; Eric B. Moller of Hongkong; Maj. Cyril H. Frisby of Surrey, England; Harry Truman of Devonshire, Bermuda and Alfred Trask, who lives only a dozen miles from here, won the 1956 match with a big bluff. The Commonwealth team also won in 1937 and 1951.

Heavyweight boxer Julio Mederos is the youngest of six brothers and four sisters.

Boxer Leaves Hospital in Wheelchair

EAST MEADOW, N. Y., Aug. 1 (AP)—Tommy (Hurricane) Jackson left Meadowbrook hospital in a wheelchair Wednesday determined to continue his fighting career.

The 3-year-old heavyweight contender signed out of the hospital against the advice of the medical authorities who wanted him to remain for observation and further checks. He signed a paper releasing the hospital from all responsibility and departed with his mother, Mrs. George Jackson.

Jackson went to the hospital early Tuesday morning, about five hours after he had absorbed a fierce beating from heavyweight champion Floyd Patterson at the Polo Grounds. Jackson was floored three times and the bout was stopped in the 10th round.

Physicians said he had suffered a bruised kidney as a result of the beating.

"I can still fight and win," said Jackson, who has a 29-6-1 record. "I been hit hard before. I want to get back in training and fight again."

Commissioner Hit For Usurping Court Authority

WASHINGTON, Aug. 1 (AP)—A house subcommittee investigating pro sports heard Wednesday that Commissioner Bert Bell of the National Football league once claimed authority which a judge said belonged to the courts. The account came from George Ratterman, ex-Notre Dame and NFL quarterback who said Bell slapped him with a \$2,000 fine for jumping to the Canadian Football league.

Ratterman said a New Jersey judge voided him the league-jumping dispute was a matter for the courts to settle. Ratterman said Bell rejected this view.

The former Notre Dame star was one of a quartet of present and former football luminaries who testified in the house anti-trust subcommittee's survey of pro sports enterprises.

Creighton Miller, another Notre Dame back of the 1940s, testified that Bell declared last winter he would quit as commissioner if NFL club owners did not recognize a players' association.

The owners refused recognition, but Bell stayed on at what Rep. William E. Miller, R. N. Y., noted was a rate in pay. Bell, who had the owners, got a bonus and \$10,000 raise—to \$40,000 a year—at the league's annual meeting last January.

Miller, attorney for the association, said it represents more than 90 per cent of NFL players from all 12 teams except the Chicago Bears.

His testimony was supported by the two chief player representatives, Norm Van Brocklin, Los Angeles Rams' quarterback, and Kyle Rote, end and captain of the world champion New York Giants.

"They confounded the type of union NPL players have formed would solve football's player-management problems, including an alleged 'blacklist' of players who try to become free agents."

NFL contracts give each club a second-year option on its players' services. By not renewing and serving out the second year, the player is nominally free to deal with another club.

After listening to the witnesses, however, subcommittee chairman Celler, D. N. Y., said the option provisions in practice is no different from baseball's reserve clause. Major league baseball contracts make players the property of their clubs.

Heavyweight boxer Julio Mederos is the youngest of six brothers and four sisters.

Boxer Leaves Hospital in Wheelchair

EAST MEADOW, N. Y., Aug. 1 (AP)—Tommy (Hurricane) Jackson left Meadowbrook hospital in a wheelchair Wednesday determined to continue his fighting career.

The 3-year-old heavyweight contender signed out of the hospital against the advice of the medical authorities who wanted him to remain for observation and further checks. He signed a paper releasing the hospital from all responsibility and departed with his mother, Mrs. George Jackson.

Jackson went to the hospital early Tuesday morning, about five hours after he had absorbed a fierce beating from heavyweight champion Floyd Patterson at the Polo Grounds. Jackson was floored three times and the bout was stopped in the 10th round.

Physicians said he had suffered a bruised kidney as a result of the beating.

"I can still fight and win," said Jackson, who has a 29-6-1 record. "I been hit hard before. I want to get back in training and fight again."

Turkeys, Ham Among Better Food Choices

By The Associated Press

Food stores will tempt consumer appetites and pocketbooks with a wide variety of bargains this week-end. Here are some of the better buys you're likely to find at the meat department: Turkeys, hams, swordfish, crabmeat, frying chickens, frankfurters and flounder fillets.

You'll find few bargains in beef. In anything, prices are a few cents higher on most cuts although supermarkets in some cities are offering "specials" in hamburger and hot-dog meat.

Market specialists say beef prices should head lower in the early fall, as they do every year, but this time the downturn may be smaller. The reason: More beef eaters than a year ago, and fewer cattle.

Pork prices may soon go down a bit as more hogs come to market. Reductions of a few cents are reported in several cities on center cut pork chops this week. Prices of lamb and veal are steady.

Poultry is Steady

Turkeys are once again a stand-out buy. The larger birds—from 16 to 22 pounds—are being offered at rock-bottom prices, and there are specials in smaller turkeys here and there. Chickens ready for frying or broiling are plentiful and cheap.

On the produce counter you'll see the usual summer favorites—tomatoes, sweet corn, squash, cucumbers, beets, carrots and cabbage—prominently displayed at attractive prices in most parts of the country. There are exceptions—in drought-stricken areas of New York and New England, vegetable crops have been severely damaged.

Spuds Plentiful

Potatoes from California, Oregon and Washington state are reaching big city markets in increasing volume. Pascal or golden heart celery is also an excellent buy this week.

Blueberries are considered one of the best buys in the fresh fruit category. Cantaloupes from the west coast are attractively priced. So are Thompson seedless grapes and Bartlett pears from California, and watermelons from South Carolina and Maryland. Peaches are available at moderate prices in most parts of the country.

T. F. Cadet Is Pacing Class

BOISE, Aug. 1—Lieut. Col. H. V. Smith, commanding of the Idaho national guard officers candidate school, said today Cadet Charles L. Yost, Twin Falls, attained an academic score of 89 during the school's first two weeks to rank first among the school's 35 members in classroom work.

The class average for 10 courses of military academic instruction was 80, Smith said. The courses, ranging from organization of the armed forces through the use of individual weapons, were prepared and graded by the regular U. S. army infantry school at Ft. Benning, Ga.

Cadet Yost, when not attending the OCS classes in Boise, is a member of headquarters company, 118th armored cavalry, Idaho national guard at Twin Falls.

The remainder of his officer qualification training will include four week-end class periods this fall and winter and two more weeks of summer training during the guard's annual field exercises next year. He also will be required to successfully complete a series of army correspondence extension courses, and do practical instruction work during his guard's weekly drill periods this winter.

Debt Cases Filed In Probate Court

The Statewide Adjustment bureau filed two indebtedness complaints in Twin Falls probate court Wednesday for amounts totaling \$194.89.

In a complaint against W. O. Baggett the bureau claims he owes \$85 to Greenwalds, Buhl, and \$50 to the L. P. Gas company, Twin Falls.

A suit against W. F. Jones charges indebtedness to the Buhl Cooperative Supply company for \$46.44.

The bureau is represented by Harry Turner, Twin Falls attorney.

Plan River Movies

George F. Pierrot, left, and William J. Trepagnier are two of three Detroiters who are filming the River of No Return. The film of the Salmon river will be shown throughout the nation.

Idaho's Tourist Industry May Benefit From Project of Trio

BOISE, Aug. 1—Idaho's tourist industry stands to get a boost from the visit Friday of a team of three eastern magazine and newspaper travel writers, TV, lecture and movie men.

They will come to Idaho to film the "River of No Return" on a rapid-running trip down the middle fork and main Salmon river, piloted by A. G. Smothers of North Fork. The film is being produced through the cooperation of the Idaho department of commerce and development.

The producers of the film are George F. Pierrot, for 25 years director of Detroit World Adventure Series with a paid attendance of 35,000, and TV travel movie producer with four weekly Detroit shows and one all-Michigan hookup; William J. Trepagnier, Automobile Club of Michigan's Motor News magazine editor and chairman of the American Automobile association publications committee; and Motor News Editor Len Barnes. Motor News circulates to 500,000 auto club members in Michigan monthly.

The group will arrive Friday night to start the project which will entail eight days "shooting" for the movie. Their purpose is world-wide publicizing of fish and hunting trips through the Salmon river.

Their trip resulted from Barnes' two visits to Idaho under sponsorship of Pacific Northwest Travel association and Idaho's department of commerce and development. He flew into Sulphur Creek ranch last year, only to find water unseasonably high and impossible fishing conditions on the Salmon. From this trip came written articles about Hells canyon, "Idaho, the State that Tourists Civilized," the Sawtooth road, Sun Valley and eastern Idaho.

Michigan is a long way from Idaho," Barnes said. "But Idaho has what Michigan folks want and can't get at home anymore—good fishing and hunting, plus your unmatched wilderness areas and mountain scenery.

From the trip will come a half-hour color and sound movie which will be used on Detroit and Michigan TV programs of Pierrot. It will be distributed free through Auto club's 43 offices for use of Michigan.

Expenditure of 25.2 Millions Approved at Arco Atom Plant

WASHINGTON, Aug. 1 (Special)

Congress' joint atomic energy committee approved Tuesday the expenditure of 25.2 million dollars at AEC's national reactor testing station at Arco.

The committee also cleared the expenditure of 40 million dollars for a 40,000 kilowatt gas-cooled power reactor which, if congress finally approves it, will likely be constructed at Arco.

Regarding the large power reactor, Sen. Henry C. Dworshak said, "I am greatly encouraged by the action of the committee but the project still has several hurdles."

The committee specified that the reactor, which would use natural uranium and be similar to those being constructed on a large scale in England must be built at a site where the power would be used entirely by AEC itself.

This is intended to quiet fears of private power companies that the government plans to go into competition with them.

Dworshak said the Arco site now uses about 40,000 kilowatts and that "AEC has no other isolated installations where this amount of power could be used."

Congress is expected to act on the committee's bill at this session but funds will not become available until next year. Besides the reactor, the committee-approved program for Arco includes \$5 million dollars for an Argonne boiling water reactor; 8 million dollars for modifications and additions to aircraft nuclear propulsion ground test plant area No. 1 (\$5,720,000 of this is earmarked for buildings); 4 million dollars for a waste calculation system; 3.7 million dollars for waste storage tanks (radio-active liquids); and a million dollars for acquisition of 182,000 acres of additional land.

They have fished in Japan, South America and Spain, and sought the elusive sailfin while deep sea fishing throughout the Caribbean and fished for trout in every one of the Pacific Northwest states. Barnes has just finished an article on Williams lake near Salmon, and its trout fishing. Trepagnier and Barnes have won five national awards for their travel and "outdoor writing" in 1957.

U. S. Plans Tests Of Baby Satellite

WASHINGTON, Aug. 1 (AP)—The United States will try launching a baby earth satellite next November as a step toward launching a bigger one next spring.

The plan for November is to try to hurl a baby version of the real thing into space during the testing of launching rockets at Cape Canaveral, Fla., missile test center.

Authorities said yesterday the "test satellite" will weigh about four pounds and will be 8.4 inches in diameter. This compares with the 21 1/2-pound, 20-inch sphere planned for launching next year.

Mr. and Mrs. Charles Humphries, Cambridge, are visiting Mr. and Mrs. Charles Page.

Blast of Nuclear Bomb Takes Life

HIROSHIMA, Japan, Aug. 1 (AP)—The World War II atomic-bombing of Hiroshima has claimed its 15th victim of the year.

Umeko Tanikawa, 54, who at the time of the bombing lived less than a mile from the central explosion point, died Tuesday in Hiroshima hospital. Authorities said she apparently had escaped unaffected, but developed symptoms of atomic disease last January. She gradually grew worse until her death.

American Spy Scare Is Red Rulers' Trick

By The Associated Press

Throughout the communist orbit, people are being told to beware American spies.

Such concerted campaigns often have foreshadowed internal convulsions. This one may mean the loose ends of the latest Kremlin purge have not been tucked into place, and more jolts are due.

The Soviet press and radio lead the chorus. Soviet propaganda organs have been telling the public regularly that American agents are trying to get political, economic and military information from "talkative people."

In Indochina, the communists in North Viet Nam gave big publicity to the arrest of a group of alleged saboteurs in the American service.

In Czechoslovakia, several groups accused of being spies for the Americans have been arrested with attendant publicity. The Czechoslovak communists have a mobile exhibit supposedly illustrating the activities and equipment of foreign spies.

East Germany has announced the arrest and trials of persons plotting sabotage against the Communist government and of students accused of spying for U. S. intelligence.

Hungary, with a wave of arrests linked to last fall's revolution, claims to have uncovered 40 groups working as agents for western powers.

Poland has arrested a German on charges of being an agent of the U. S. intelligence service, seeking information on Poland's defenses. Bulgaria has lodged spy charges against a German on charges of seeking information on Poland's defenses.

The Soviet campaign warns of "agents in the guise of diplomats." Moscow radio's home service said recently:

"They make long journeys in the Soviet union, in the course of which they try to strike up as many acquaintances as possible to obtain the information they need from talkative people. The most useful discoveries of the American intelligence are babblers and braggarts."

The broadcast, like many organs of the Soviet press, said American intelligence seeks the services of "unstable and decadent elements," particularly among young people and intellectuals. These agents, it added, put out provocative rumors against Soviet political leaders.

Statements like these are significant. The major ferment inside the USSR is among young people and intellectuals. No doubt the Soviet union is alive with rumors of what will happen next in the wake of Khrushchev's purge in the Kremlin and in view of growing unrest in communist countries.

Similar spy scares preceded purges in Stalin's day. After Stalin, a massive vigilance campaign foreshadowed the purge of police boss Beria. In November, 1954, a campaign began against "loud-mouths," extending through January, 1955, a week or two before Georgi Malenkov was toppled as premier. Another such drive preceded the 20th party congress at which Khrushchev denounced Stalin's record.

'Cage' Killer Is Given Sentence

FRANKFURT, Germany, Aug. 1 (AP)—Germany's murderer in the glass cage has been sentenced to life imprisonment for killing a 10-year-old boy.

Erich Egli, 29, an advanced tuberculosis case, was sentenced yesterday after being convicted of killing Wolfgang Stern last summer. Because of his disease, Egli sat throughout his two-week trial in a glass cage. He heard and answered questions through a microphone and loudspeaker system.

Shelling Resumed

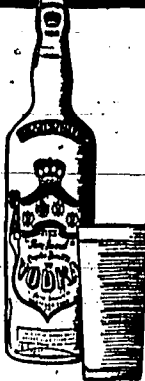

TAIPEI, Formosa, Aug. 1 (AP)—The Chinese communists on Amoy resumed shelling the Nationalist island bastion of Quemoy this morning after a week's lull in the vest-pocket war.

A defense ministry communique said the red guns fired a total of 11 rounds at Nationalist vessels near Quemoy but did not score any hits.

SEVEN KILLED

CALCUTTA, India, Aug. 1 (AP)—Seven persons were killed and 50 others injured in the coal town of Asansol yesterday when a railroad car carrying fireworks exploded in a marshalling yard, officials reported today.

Atom-Powered Merchant Ship Planned

Lewis Strauss, chairman of the atomic energy commission, points out a feature of the planned merchant ship on an artist's sketch during a discussion in Washington of the new-type craft with Maritime Administrator Clarence G. Morse. The government plans to let the contract for the nuclear-powered merchantman early this fall and have it at sea in 1960. (AP wirephoto)

Danish Freighter Is Allowed to Sail

JERUSALEM, Israel, Aug. 1 (AP)—The Danish freighter Birgitte Toft was en route to Albania today from Haifa, free from a 10,000 kronen (\$1,400) debt.

The ship which broke the Egyptian blockade of the Suez canal by sailing from the Israeli port of Eilat to Haifa was prevented from sailing from Haifa by a court order against the captain, Hans Lolk, who alleged-

Tougher Treason Law Is Approved

JERUSALEM, Israel, Aug. 1 (AP)—Israel's knesset parliament began an 11-week recess today after passing a law providing for the death penalty for treason committed during wartime.

The knesset approved the law just before this year's session ended last night. The death penalty for treason had been suspended in 1953.

The Toft was allowed to sail when the Israeli ministry of commerce and industry guaranteed to pay the debt. READ TIMES-NEWS WANT ADS.

Bavarian Chimneysweeps Get Respect of Entire Population

By HENRY McLEMORE

OBERAMMERGAU, Aug. 1 (AP)—The idea of a chimney sweep is not a pleasant one in most parts of the world. But in Bavaria, the chimney sweep, or "Schornsteinfeger," holds a respected place in the community. He gets good pay, and his security is guaranteed by one of the highest-handed guilds in existence.

Depressions do not affect the chimney sweep. There are no layoffs. In the 14th century a law was passed that every chimney had to be cleaned once a month, and that law is still in existence.

It's not easy to become a chimney sweep. The apprentice must be of a proper size to begin with and he faces three years of climbing up and down the inside of chimneys before his journeyman's examination. On becoming a journeyman, he must serve six years before taking his master's examination.

The examination for journeyman is far from a cinch. He must know all there is to know about chimney construction and the laws which govern them. At a glance he must be able to judge whether the chimney is of the right size and shape for the house and, from the smoke coming out of it, determine if it needs a cleaning.

House owners have no control over their chimney. They are told what to build, and their care and cleaning is completely in the hands of the sweeps. They can order it cleaned at any time, and if they say it needs repair, or that it would work better if it were shorter or longer, the owner has to heed their words or go to court.

There are fewer than 300 master sweeps in all Bavaria, and the ex-

aminations, both practical and written, are extremely difficult. In the practical examination the sweep must clean a certain number of chimneys within a time limit, and they are different sizes and shapes. Many a journeyman flunks by getting stuck in a chimney of strange design.

The written examination covers fire, building, insurance, and police laws throughout Germany. Once a sweep becomes a master he is set for life, but there is still room for the more ambitious. Over the masters are chiefs and over the chiefs are chief masters. Above the chief masters there is nothing but the blue sky. They hold their positions for 26 years before retiring.

Under the rules of the guild, whenever a master gets stuck in a chimney and cannot be rescued by normal means, the chimney is pulled down and the guild foots the bill for its reconstruction. No mention is made of what happens when a journeyman or an apprentice gets stuck for good.

The first-time visitor to Germany never fails to be charmed by the sweeps when he sees them riding by on their bikes, black from head to foot, and wearing an immaculate top hat.

The legend of the top hat is that years ago, when apprentices had to do their masters' shopping, and were not given time to wash themselves before going to the market place, they took to wearing top hats so the villagers would respect them.

The masters whacked the apprentices for this show-offishness, but when one of the apprentices finally became a master he decreed that all

sweeps would wear the elegant head-gear.

To touch a chimney sweep when he is at grimy work requires nearly two hours for a sweep to clean himself at the end of the day is considered lucky, and at New Year's Eve parties they are engaged to stand outside the door and each arriving guest pats them on the head or cheek for luck.

Fitoists Give Poland Some Bad Moments

BERLIN, Aug. 1 (AP)—Stalinism in East Germany has smashed a "fitoist" movement designed to diminish Soviet controls and create a communist state similar to Wladyslaw Gomulka's Poland.

The movement never posed a serious threat to the entrenched power of communist leader Walter Ulbricht and the 450,000 Soviet troops behind him.

Student Support

But it gained widespread support among students and intellectuals and infected the rank and file of the communist party itself.

The leaders of this "counter-revolutionary" movement have been jailed. However, the unrest that produced it still exists and could some day explode into the open.

The leaders were little known in the West. But all had large followings in the Soviet zone. All were considered loyal communists until the Hungarian revolt. And all of them had responsible jobs under Ulbricht that brought them a high income and the privileges the communist ruling class enjoys.

Leader

The leader of the movement was Wolfgang Harich, 33-year-old professor of Marxism at East Berlin's Humboldt university.

Harich until his arrest was considered by the communists one of their brightest young men. He frequently was sent to the West to persuade West German intellectuals of the merits of communism. He represented the communists at many forums held in West Berlin.

He was sentenced to 10 years imprisonment in March.

Four of Harich's fellow conspirators were sentenced to a total of 14 1/2 years imprisonment last week by the East German supreme court.

Untrimmed

CHICAGO, Aug. 1 (AP)—Two young gunmen who failed to get their heads together in time, faced charges today of robbing a suburban finance company of \$300.

Working on a clue that one of the gunmen had a "duck tail haircut," police quickly spotted Douglas Fletcher, 18.

Fletcher's companion, police said, is a barber.

Killer Kept Diary

How communism works was described by the killer of Guatemalan President Carlos Castillo Armas in his handwritten diary. Robert Castaneda, chief of public information of Guatemala, is pictured showing the diary to newsmen in Guatemala City. The 23-page document, written by the assassin, outlined the communist philosophy and indicated that he would be willing to give his life to eliminate Armas and advance the cause of communism. Castaneda also displayed a letter written to the assassin from communist Russia. (NEA telephoto)

Policemen's Path Blocked by Loot

ST. LOUIS, Aug. 1 (AP)—If it hadn't been for the loot the robbers couldn't have made their getaway.

Two men parked their car in an alley behind the Leon Lewis Grocery store Thursday morning and loaded Lewis' safe into the car trunk.

Down the alley came policeman Francis Schovones in a patrol car. The robbers sped off but the safe fell out, blocking the narrow alley and ending pursuit.

Store owner Lewis said he didn't think the \$5 in the safe was worth all that trouble.

Body Recovered

IDAHO FALLS, Aug. 1 (AP)—The body of William Kirkham, 74, Idaho Falls, last night was found floating in the Snake river near here.

The elderly man had disappeared a month ago.

Bonneville county sheriff's officers said Tom Stanger, Idaho Falls, found the body at about the same spot where Kirkham had last been seen June 29.

New Uranium Reactor Will Make Current

IDAHO FALLS, Aug. 1 (AP)—There is a possibility a natural uranium, graphite-moderated, gas-cooled power reactor prototype may be built at the national reactor testing station in eastern Idaho, Sen. Henry Dworshak said Tuesday.

The senator, in a telephone call from Washington to the Idaho Falls Post-Register, said early proposals before the joint senate-house atomic energy committee designated the site of the gas cooled reactor for Idaho. But he said the bill as reported does not designate the location.

Dworshak, in discussing the group's recommendation that \$250,000 be spent for construction of the AEC military program and for development of peaceful uses for atomic energy, said the following items were earmarked for Idaho's NRTS:

Waste calcination system, \$4,000,000; Argonne boiling reactor, \$8,500,000; waste storage tanks, \$3,700,000; land acquisition, \$1,000,000.

In 1956 the freshman class in engineering in United States universities was 77,000.

Heavy Work

NEWPORT-BEACH, Calif., Aug. 1 (AP)—Kidnappers had a weighty problem on their hands when they abducted an Italian beauty from the front of a lamp shop.

A life-size, 2,300-pound nude statue lamp base, imported from Italy, was stolen Tuesday night.

TEST POSTPONED

ATOMIC TEST SITE, Nev., Aug. 1 (AP)—Unfavorable winds persisted last night, causing a fourth 24-hour postponement of an atomic test.

Local Cadet Has Honor at School

BOISE, Aug. 1 (AP)—A score of 89 won top honors for Cadet Charles L. Yost of Twin Falls in the first two weeks of the Idaho national guard officers' school.

Lieut. Col. H. V. Smith, commandant, said yesterday.

Yost is a member of Headquarters company, 110th armored cavalry, at Twin Falls.

A hand ride in horse racing is a ride in which the jockey does not use the whip.

Rights Battle Narrowing to Single Point

WASHINGTON, Aug. 1 (AP)—In its latest terms, the wind-up civil rights controversy now boiling in the Senate adds up to this: Shall the federal government be allowed to perfect machinery by which it can compel Southern states to permit Negroes to register and vote? The Eisenhower administration holds that the machinery available under the 15th amendment is ineffective since reconstruction era legislation, which became part of the constitution in 1870, provides that Congress shall have the power to enforce by legislation the amendment's prohibition against the denial of the right to vote by the United States or by any state for reasons of race or previous condition of servitude.

The enforcement machinery created by Congress made the denial of the right to vote a criminal offense. Congress ordered that the 15th amendment be enforced by criminal prosecution. The Eisenhower administration holds that this machinery has proved faulty for two reasons:

No Conviction
Southern juries have refused or been reluctant to convict their local officials on such criminal charges. Such criminal proceedings, by their very nature, have had to take place substantially after the event—so that a criminal action could not be maintained in time to assure the vote of a qualified Negro.

The federal government might or might not obtain the conviction of a local official on charges of criminal obstruction of a Negro's right to vote. There for sure, the Negro did not vote because he never reached the polling place and his lost vote never could be restored to him because the action long since was over by the time criminal proceedings began. That is the way it looks to the administration. The enforcement machinery has not worked. So an effort is being made to change them. The proposed change consists—in essence—of substituting civil for criminal action in the enforcement of the prohibition stated in the 15th amendment.

No Wait
Not only that. The federal government would not wait until a Negro actually had been deprived of the right to vote. Under the voting rights provision of the pending bill, the attorney general could begin civil proceedings "whenever there are reasonable grounds to believe that any person about to engage in any act or practice which would deprive another of the right to vote."

Moreover, such proceedings would be a civil action for injunctive relief which would dispense with a jury and leave both verdict and the punishment to the federal judge of the appropriate United States district court.

The administration emphasizes the preventive nature of the relief proposed, the purpose of intervening before instead of after the denial of the voting right. Attorney General Herbert Brownell, Jr., insisted that the foregoing is a modification of existing machinery because it would substitute civil for criminal action.

"It is a moderate bill," said Brownell.

"It is not," the Southerners retorted. They hold that the constitutional right of Southern whites to a jury trial is being flushed down the drain to guarantee the constitutional rights of the Southern Negroes to vote.

Doctors Draft Law Changes Are Reported

Amendments to the universal military training and service act adopted in June replace the former "doctor draft" law.

The special registration of doctors, dentists, and veterinarians has been discontinued, according to information received at the local headquarters of the selective service system. The amendments make it possible for the department of defense to call upon the selective service system for the induction of medical, dental and allied specialists if the need should arise. These professional men will be selected from the list of regular registrants, but their selection will be separate from other registrants.

One of the principal effects is the limitation of liability of doctors, dentists, and allied specialists to age 35 for those deferred on or after June 19, 1951, and to age 26 for those not so deferred.

While medical specialists may be drafted and may be used in their capacity in an allied grade, it is expected that doctors and dentists with a service liability will apply for commissions in the armed forces reserve components.

Money Presented

BURLEY, Aug. 1 (AP)—The Idaho Ranch for Youth, Burley, has been presented \$47 from the Burley Rebekahs. The money was raised through a benefit sponsored by the Rebekahs.

Mrs. Cora Thompson, a charter member of the lodge, made a quilt which was presented to the lodge and then given away during the benefit. The Rev. James R. Crowe, Jerome, director of the ranch, told the Rebekahs he hopes to have quarters built at the ranch for his family by fall. He said construction on the dormitories will begin next spring.

No Easy Method Found to Quit Smoking; Will Power Required

WASHINGTON, Aug. 1 (AP)—Do you want to give up smoking cigarettes? Well, you could try munching mince or having a baby. You also might try going to jail or to the South Sea. Or perhaps "psychologizing yourself."

But the advice of doctors, psychiatrists and others here mostly boils down to the hardest feat of all: Use your will power.

Bald Dr. Leroy E. Burney, chief of the U. S. public health service, said he has announced there is no evidence linking cigarette smoking to lung cancer.

If you're determined to quit, just quit. There's no magic formula. (Burney smokes a pipe.)

Or psychiatrist Dr. Robert Felix, director of the national institute of mental health: "There's no magic formula. I wish there were; I'd make a fortune."

Felix, an expert in the field of addiction, does have tips, related here which might make the giving-up easier.

At the start, those polled all strongly endorsed the following passage from Dr. John Harvey Kellogg's book "Tobaccoism" published more than 30 years ago:

"The confirmed smoker who has reached that point at which the cigar, pipe or cigarette is necessary to prevent nervousness, irritability, mental confusion and incapacity for work or pleasure and to enable him to maintain the mental poise essential for effectual activity will understand that the most important step in giving up cigarettes is 'making up your own mind' to do so. Then Chapman said, try it out 'when you are not under problems and can relax. Pamper yourself and go ahead and nibble candy or food. You can lose the extra weight later."

Rep. John A. Blatnik, D., Minn., chairman of the house cigarette-cancer investigating subcommittee, said Dr. Alton Ochsner's book "Smoking and Cancer" which says that you can more easily stop smoking "abruptly, completely and permanently" if you investigate your psychological reasons for smoking. (Blatnik has cut from two to one pack a day and plans to "give up the things completely as soon as I psychologize myself.")

Robert F. Secrest, acting chairman of the federal trade commission, who asked Congress for more power to police cigarette advertising: He chews tobacco and has given it up 40 times. There are so few tobacco chewers, "I don't think anyone in the country cares a damn if we live or die. It's a lost art."
